CARWASH & CAR CARE

NEOS WAX LUCENT
the new car drying wax

NEOS WAX LUCENT

is the **new car drying** wax formulated by Research&Development Allegrini labs. Based on highly-reactive modified silanes, Neos Wax Lucent gives an **extreme shine to the car bodywork**.

Ideal for:

- All external car surfaces

The added value

Attention to the operator is the core of Allegrini philosophy. In fact, in the formulation of Neos Wax Lucent, a **careful selection of high quality raw materials was carried out with the aim of speeding up the work of professionals** in the sector. Neos Wax Lucent has been formulated to be used both manually, helping **reducing car finishing times**, both in tunnel and portal carwashes **with waters of any hardness**, including hard ones, guaranteeing excellent results **even at low temperatures**.

How?

Thanks to the **protective film forming on the external surfaces**, that **avoids the dirt anchoring** and **protects the car from atmospheric agents**. Moreover, the highly performant formulation makes the surfaces hydrophobic and hydrorepellent, allowing an optimal drop flowability under the ventilation flow.

Which are the advantages?

- **Glossy** effect that valorize the colour deepness
- Ultra bright **mirror** effect
- **Shield** effect against dirt and smog
- Eases the **drop flowability**
